PEONIES — AUTEN ORIGINATIONS

This list of 111 varieties, all Auten originations, includes: 32 Japs, the finest addition to the list of Japanese varieties ever made by one person outside of Japan; red Japs fine enough to supplant most of those now in commerce; Novelty reds in new shades; Japs with real refinement and charm. 39 Singles; reds unsurpassed and filling every need; white singles setting an entirely new standard in form, substance and plant habit, free from the discordant note of red or pink seed pods; only four pinks, all of highest quality. 40 Doubles; enormous blooms for the show table; unusual colors and forms for the sake of variety; reds that must soon take their places among the best; whites of exquisite charm.

RED PEONIES of all types listed herein fall into two groups, **Standard** reds, with clear colors and as a rule holding their color until the bloom is gone, the greatest improvement in red Peonies to date; second, **Novelty** reds, in most unusual shades, from their very nature subject to some fading at the end, but still very much worth-while. Extreme hot spells here in central Illinois test out the reds very severely, and introductions of other growers further north often fail to justify themselves here.

MY STANDARD is set for blooms which will open easily every year in the warmer part of the Peony belt, which are of good substance, and for good stiff stems. If a variety has a stem below par or is suited only to the northern part of the country where bloom begins June 4 or later, mention is made of these facts, and prices are held lower than quality of bloom alone justifies.

Auten originations have received more official awards from the Seedling Committee of the American Peony Society during the last eleven years than those of any other grower. They are the result of 17 years work with many thousands of seedlings, and are selected for naming only after most careful observation for several years.

PRICES quoted herein are very low, for quality is high, and the number of divisions of many kinds ranges from only ten to thirty each, they being offered ten years after planting the seed. Where stocks are larger, prices are reduced, despite high quality. Anyone purchasing these new kinds should find that future increase would more than offset future natural price reductions.

OFFICINALIS X SINENSIS HYBRIDS

I have about 45 of these, only two clumps each of 4, only one clump each of the rest. These include some of the most beautiful red peonies the world has ever seen, and they bloom before the common peonies start. Will be sold by special correspondence only, at \$50 and up.

ADVANCED SEEDLINGS FOR EVERY PURPOSE

I have over 2,000 different advanced seedlings under trial, and from these can furnish any type or color suitable for the finest and most exclusive gardens; at more moderate prices for those wanting to try "something different"; and at low prices for mass plantings, especially fine in singles and Japs. Write for special circular on seedlings for mass plantings.

Highest quality seedlings by special correspondence.

Trial seedlings from advanced beds. 4 singles, all different, \$2.00; 4 doubles, all different, \$2.00; 4 Japs, all different, \$2.50.

AUTEN DOUBLES, 1933

- Auten's Pride.** Just about as near perfection as it is possible for a Peony to be. Very large, full double light pink, with flesh and lavender shades, rose fragrant, fine substance. Stiff stems just above medium height. Late, and a very sure opener. This one feature alone places it ahead of dozens of our present late varieties. Extraordinary in every way.....\$25.00
- Dance Caprice.** Fine flesh, semi-double, fading white, best described as a much refined Lady A. Duff. Tall stiff stems, medium size blooms, good substance, very trim, fine finished bloom. Very distinct and pleasing..... 10.00
- Julia (1926).** First time offered for sale, named when only one plant in existence. A late even soft pink full double, very large, no fragrance. Stem fair. Best suited to places where Peonies do not open until June 4 or later. Twice approved by Seedling Com., Am. Peony Society. Low price.. 2.00
- Mandarin.** A rich dark red bomb, as early as Richard Carvel, but far superior in substance and durability of color. Fine stem. Probably of very high value for commercial cut flowers..... 10.00
- Manoah.** Pearly lavender flesh, full double, stem fair. An exquisite bloom. Stock ample..... 3.00
- Mary Auten.** A Peony without a fault, named for my daughter. White double, opening pale flesh, fragrant. Late, sure opener. Fine stem, good height. A bloom of the utmost refinement..... 25.00
- Morocco.** A very early and vigorous full double red, tall stiff stems. This carries more purple than I like, but many people like it and it is no worse than many in commerce. It is worthy of trial for cut flower trade, and should be used in breeding. Price is put low, even though stocks are small. Order at once if you want this..... 3.00
- Naomi.** A very outstanding Hon. Men. double, very large, a few hidden stamens, rich creamy flesh pink, beautifully formed. Stock ample, otherwise price would be \$25.00..... 5.00
- Old Hundredth.** Those who have thrilled to the majestic strains of the Doxology may imagine the thrill that this full double rich creamy white gives me. Late, very tall, comparable to Grace Loomis. In a hot spell not all blooms come perfect, but I always get some good ones. Priced very low..... 4.00
- Patience.** Tall, late cream white double, flat bloom, incurved petals, very chaste. Stem fair..... 3.00
- Pink Monarch.** A full double with a collar of yellow petaloids pretty well hidden. Bright pink, color about the same as Souv. de Louis Bigot, but much more refined in petalage. The tallest peony in my 7 acres, nearly 5 feet, stiff stem, as good as one could be of that height. A great novelty 10.00

Naomi (Auten, 1933) a soft pink double \$5.00

- Pink Solange.** Just exactly what the name implies—same exasperating bud, same form of bloom, fine pink, color of Sarah Bernhardt (no red splashes). Only 4 clumps in existence..... **15.00**
- Prudence.** A fine lavender flesh white, very chaste, fragrant. Stock ample..... **2.00**
- Sanctuary.** I have never seen a finer double white bloom than this creamy white gives me at times. Very large, of extra heavy substance, on tall good stems. Should be certain every year north of Chicago. Carpels tipped pink, but hidden. A \$50 peony at a low price..... **7.00**
- Siloam.** A refined white double, flat; exquisite finish **3.00**
- Silver King.** A magnificent very late full double white. Hon. Men., Am. Peony Soc. One of the most noted originators of peonies in the U. S. said "as fine a seedling as I ever saw, and as fine as Le Cygne." Fine plant. So late that hot weather sometimes gets it here, should be perfect north of here. A bargain..... **5.00**
- Sistie.** Easiest described as a high built little Tour-angelle, rose fragrant. Fades white. Stem only fair, but the bloom is irresistible. If you read the White House news items, you may know where the name came from. Stock limited..... **3.00**
- Zulu Bride.** Darkest black red, semi-double..... **3.00**

FAMOUS 400 SERIES SEEDLINGS

An entire lot of 97 plants from the same seed parent showed so fine in the original bed that I saved them all, numbering them 400 to 496. They were of extraordinary beauty, whites and pale flesh, singles and doubles. Already I have named 5 single and 5 double whites, and two double pale pinks. Some blooms are very fine but on weak stems, and I have decided to offer a few of these under number at a low price. They will well repay staking.

Nos. 413, 431, 434, 432, 409, 403 and 404 have weak stems; Nos. 411, 425 and 418 are a little bit tight here, should do well up north.

Nos. 402 and 441 are stiff stemmed white singles, No. 427 a pink single, stiff stemmed.

Price of any of the above, 75c for one, or 50c each if your order for all peonies totals \$3.00 or more. Try 6 for \$3.00.

No. 408 is a magnificent white single, extra fine except that it has pink tips to seed pods, like Le Jour, and I have resolved never to name such a single white. A bargain at \$1.00 each, 3 for \$2.50.

Seedling 105. This red anemone type was selected years ago for naming as a Jap. It suddenly developed too full, and was forgotten. This year, not disbudded, I noticed the side blooms had the dark center, same new type as Prairie Afire. Disbud center bud and you will have a fine effect. Should be used in breeding. Stock limited 3.00

HYBRID TREE PEONY

Souvenir de Maxime Cornu. A glorious orange yellow double bloom. Very rare. Strong divisions from own root plants.....\$16.00
Large blooming size by special correspondence.

LILIES

Umbellatum Erectum. Blooms in June. Orange red with dots. Vigorous, easy to grow. Large bulbs; 30c each, \$3.00 per dozen. Medium blooming size, 40c for 2, \$2.00 per dozen.

Speciosum Rubrum. Blooms in August. White flushed pink with dots. Home grown. 30c each, \$2.50 per dozen.

Plant Peonies in good soil, in full sun if possible, and away from trees, buildings, etc. Do not plant where a peony has been before, unless all old soil is taken out and replaced with fresh. Plant 3 to 4 feet apart; set so that the eyes point upward and are 2 to 3 inches below the top of ground (very important). Give each root 2 quarts of water when planted, and then make a 6 inch mound of dirt above ground level to prevent heaving, scrape mound away late next spring.

Important. Open your package of roots immediately when they arrive. Plant as soon as possible but if you have to wait a few days, either keep moist in open box in cool cellar, or better yet, bury in garden.
